

CASE STUDY : TO PERFORM IMAGE ENHANCEMENT TECHNIQUES ON TWO IMAGES USING TOOLS PROVIDED IN GIMP SOFTWARE

PROCEDURE:

1. The image to be enhanced was opened in Gimp Software.
2. From the 'Colors' menu option, following enhancements were selected one-by-one and the values were adjusted as required:
  - a) Brightness-Contrast
  - b) Shadows-Highlights
  - c) Exposure
  - d) Saturation
  - e) Hue-Saturation
  - f) Color Temperature
  - g) Color Balance
3. The final enhanced image was saved and exported as png.
